## EVO:C SERIES CARTRIDGE FILTERS

The Noria EVO:C utilises state-of-the-art Dupont Reemay cartridges. The element's ability to filter fine particles without embedding them means the EVO:C cleans more thoroughly and easily than other cartridge filters.

Safety is paramount with the EVO:C and the unique design of the locking ring ensures the cartridge lid is sealed even under high pressure and high temperatures. The inbuilt pressure release valve prohibits damage to the pump and filter should the element become blocked. EVO:C filters have been tested to over twice the maximum operating pressure of 300 kpa. Manual air bleeding is no longer necessary as the

EVO:C has an inbuilt automatic air bleed system. 50mm connections provide fast installation and give the EVO:C the ability to handle high flow rates.

Compact in design, yet adaptable, the EVO:C cartridge filter allows for varied output configurations with up to 3 outlets and 1 inlet. Superior performance is guaranteed in one convenient package. The EVO:C cartridge filter is part of a range of intensively researched, high quality, connected products that work in harmony to ensure the pool or spa is easy to maintain and ready for use at any time. As it does not require a backwash line, the EVO:C cartridge filter is efficient at water conservation making it a **waterearth** recommended product.

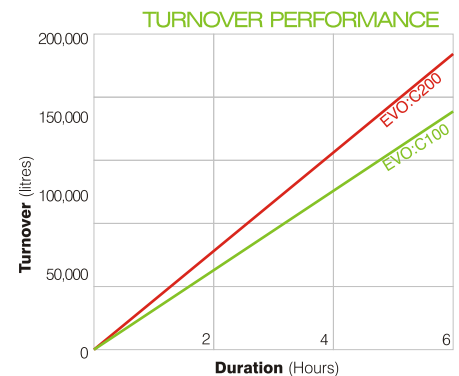

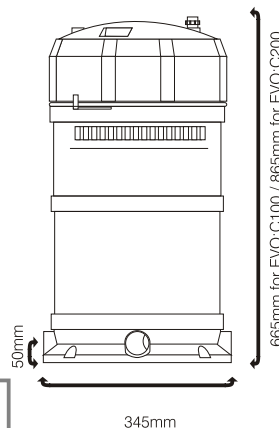

## SPECIFICATIONS

Product	Horse Power	Flow Rate*	Filter (mm <sup>2</sup> )	Dimensions (mm)
EVO:C100	0.75 – 1hp	375	940	665x345
EVO:C200	0.75 – 2hp	490	1900	865x345

\*Flow rate is measured in litres per minute

## WARRANTY

Each filter is covered by a limited 5 year warranty on the tank and 12 months on other components. The instruction manual that accompanies the EVO:C cartridge filter provides more information.
